

## Environmental Policy

The Hotel supports energy conservation and the considerations of the environmental impact of its activities.

3 key aims:

- To minimise the use of non-renewable and environmentally damaging resources.
- To maximised recycling.
- To increase awareness of environmental issues amongst staff and guests.

Throughout the hotel:

- Low energy light bulbs are used.
- Towels only changed when not on towel rail in bathroom, towels in bath or shower means change please.
- All glass, cans, paper and cardboard are collected for recycling.
- Old furniture donated to charity (where possible).
- All printer cartridges are recycled.
- Paper is reused for printing from the fax machine.
- All waste is disposed of in a safe and responsible manner.

As a Guest we would request you help us by:

- Turning off any lights when not in use.
- Turning off the standby button for the TV.
- Turn down the heating if it is too hot.
- Unplugging any chargers and laptops when not in use.
- Reusing your towels where possible.
- Please only fill the kettle with amount of water needed.

*Should you have any further suggestions, please let us know*
