4. A maximum of 12 swimmers are allowed in the water at any one time.
5. A maximum of 24 people are allowed in our pool area.

Spot the dangers.

Take care, swimming pools can be hazardous. Water presents a risk of drowning, and injuries can occur from hitting the hard surrounds, or from misuse of the equipment. Every pool is different, so always make sure you know how deep the water is - our pool varies in depth from 1.1m to 1.9m. Check for other hazards, our pool is deeper in the centre than it is around the edges.

Always swim within your ability

Never swim after a heavy meal or after alcohol.

Avoid holding your breath and swimming long distances under water.

Be especially careful if you have a medical condition such as epilepsy, asthma, diabetes, or heart problems.

Follow advice provided for the safety of yourself and others. Avoid unruly behaviour which can be dangerous: for instance, running on the side of the pool, ducking, acrobatics in the water, or shouting or screaming (which could distract attention from an emergency). Always do as the staff say, and remember that a moment of foolish behaviour can cost a life.

Should you need to summon assistance please use the red emergency button which is situated on the white wall at the side of the pool.

Various items of lifesaving equipment are provided at the poolside. It is an offense, by law, to interfere with or misuse items provided in the interests of health and safety, these items should only be used to assist a swimmer in difficulty.

PLEASE NOTE IT IS ILLEGAL TO SMOKE/VAPE ANYWHERE INSIDE OUR HOTEL
